

# SERVICE INFORMATION

The ability to coordinate care across various healthcare networks is critical for today's health organizations. Connecting to the WellHive ION Platform, providers and staff can utilize on-demand scheduling across referral networks.

WellHive's direct connections to providers' EHR systems and scheduling applications make the coordination of care seamless while allowing providers and their staff to continue to utilize their current systems and practice workflows.

## BENEFITS

Increased productivity

Integrated records exchange

Dedicated Technical Support Team

Expedited Responses

System Monitoring Services

System Reliability

Annual Review

Monitoring and measurement metrics
